Arena Scheduling Guidelines

- **No Changes Needed:** If your schedule has 8 classes and you are happy with the schedule, you do not need to do anything with Arena scheduling.
- **Core Classes:** You cannot drop core classes or change the level of a core class (i.e. change Sec Math 2 to Sec Math 2H). You may, however, change the period in which you take a core class if space is available.
- **Audition, Application or Tryout Classes:** These classes may not be dropped or added by a student. The teacher or adviser over these programs submits student names to be added in the class.
- **Elective Classes:** All elective classes may be dropped or added if there is space available.
- **WARNING!!!!!!!** Do not drop a class until you are certain of the change you want to make and know there is space available. Once you drop a class, someone else may take your space.
